

Press release 7 August 2025

Acquisition of HNC

Asker Healthcare Group has acquired 100 per cent of the shares in Health Net Connections Limited ("HNC"), a leading provider of healthcare software for digital diagnostic imaging, ultrasound reporting and secure data-exchange to hospitals and private clinics across the UK.

"We are pleased to welcome HNC to the Asker family. The team has a proven track record of successful software implementations that help healthcare professionals safely manage patient data, enhance workflow, and save time. With this bolt-on acquisition to the HSL Group, we further strengthen our position in the region and expand our existing offering within ultrasound imaging and reporting software also to the UK market", says Johan Falk, CEO Asker Healthcare Group.

HNC is specialised in the distribution, implementation and maintenance of ultrasound imaging and reporting software to hospitals and private clinics. The company is based in the UK, has 21 employees and generated revenue of approximately SEK 60m in 2024.

The acquisition is expected to contribute positively to the group's EBITA margin.
